

Shehryar

Full Stack Developer | Blockchain & AI Product Engineer

shehryarwebdev@gmail.com | +92 311 1404107 | Remote, Available worldwide | github.com/shehryar-web-dev | linkedin.com/in/shehryar-naeem-831691213

PROFESSIONAL SUMMARY

Full-stack developer with 3+ years of experience building modern frontend, backend, and blockchain-based product experiences. Skilled in React, Next.js, TypeScript, Node.js, NestJS, REST APIs, wallet authentication, Web3 integrations, and responsive UI systems. Strong focus on shipping production-ready dashboards, dApps, marketplaces, loyalty systems, staking workflows, and AI-assisted product features.

EXPERIENCE

Full Stack Developer - Weiblocks

2023 - 2026

- Worked on blockchain-based web applications across frontend, backend, API integration, wallet flows, and production-ready product interfaces.
- Built responsive dashboards and dApp screens using React, Next.js, TypeScript, Tailwind CSS, and modern component patterns.
- Integrated backend services, REST APIs, authentication flows, and Web3 functionality for staking, rewards, marketplace, and loyalty products.
- Collaborated with product and backend teams to turn requirements into scalable full-stack features.

Frontend Developer Intern - Excellence Code Solution

2023 - 2 months

- Completed a two-month frontend development internship focused on building responsive web interfaces.
- Practiced React, JavaScript, HTML, CSS, and component-based UI development through real project tasks.
- Worked with senior developers to improve page layouts, fix UI issues, and understand production frontend workflows.

SELECTED PROJECTS

TWQ

Event-driven cryptocurrency analytics platform for Solana traders with wallet authentication, market analytics, rug checks, GPT-4 insights, and personalized Telegram alerts.

- Built responsive market dashboard interfaces and user preference management.
- Integrated CoinGecko and Birdeye APIs plus Phantom, Solflare, MetaMask, and WalletConnect flows.
- Implemented contract risk analysis including liquidity and holder distribution checks.

FinTrust

Full-stack decentralized staking and rewards platform on Solana with token purchases, staking tiers, cashback, referrals, KYC-enabled ICO participation, and admin controls.

- Developed staking, rewards, transaction history, and reward visualization interfaces.
- Connected frontend workflows with backend APIs and Solana smart contract interactions.

NFC Loyalty System

Customer loyalty platform using NFC check-ins, NFT rewards, membership tiers, mobile app flows, merchant dashboards, admin dashboard, and backend services.

- Built merchant/admin dashboard interfaces, REST API integrations, Privy wallet authentication, NFT minting flows, and tier upgrade experiences.

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, Python
- Frontend: React, Next.js, React Native, Tailwind CSS, Redux, Zustand, HTML5, CSS3
- Backend: Node.js, NestJS, Express.js, REST APIs
- Databases: MongoDB, PostgreSQL, Supabase
- Caching & Queues: Redis, BullMQ
- Blockchain: Solana, Web3, Wallet Adapter, Phantom, Solflare, MetaMask, WalletConnect, Privy, SPL Tokens, NFTs
- AI: OpenAI API, GPT-based applications, AI API integration, RAG fundamentals
- Cloud & DevOps: AWS, Docker, Git, GitHub, Nginx
- Tools & Services: Vite, Axios, Supabase, Cloudinary, Heliuss, CoinGecko, Birdeye
