

Shehryar Naeem

Senior Full Stack Engineer

Lahore, Pakistan | +92 311 1404107 | shehryarwebdev@gmail.com
Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Full Stack Engineer with 3+ years of experience building scalable web applications, backend services, and blockchain products. Experienced in React, Next.js, TypeScript, Node.js, NestJS, REST APIs, databases, Solana integrations, and AI-powered applications. Delivered production-ready dashboards, dApps, staking and rewards platforms, loyalty systems, Web3 integrations, and maintainable full-stack solutions.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python
Frontend: React, Next.js, React Native
Backend: Node.js, NestJS, REST APIs
Databases: PostgreSQL, MongoDB, Redis
Blockchain: Solana, Web3, Wallet Authentication, SPL Tokens, NFTs
AI: OpenAI API, AI-Powered Applications, RAG
Cloud & DevOps: AWS, Docker, Git, GitHub, Nginx

PROFESSIONAL EXPERIENCE

Full Stack Developer

2023 - 2026

Weiblocks

Lahore, Pakistan

- " Developed and shipped production-ready web applications across frontend, backend, APIs, databases, and blockchain integrations.
- " Built scalable applications using React, Next.js, and TypeScript with reusable component architecture.
- " Developed REST APIs and integrated authentication and Web3 workflows for staking, rewards, marketplace, and loyalty products.
- " Collaborated with product and engineering teams to translate business requirements into maintainable production features.

Frontend Developer Intern

2023 - 2 Months

Excellence Code Solution

Lahore, Pakistan

- " Built responsive user interfaces and reusable React components for production web applications.
- " Collaborated with senior developers to refine layouts, resolve UI issues, and follow production development practices.

KEY PROJECTS

TWQ

Next.js, NestJS, Redis, OpenAI API

Solana analytics and AI-powered trading platform featuring wallet authentication, token risk analysis, real-time market insights, personalized dashboards, and automated Telegram alerts for monitoring trading opportunities and blockchain activity.

- " Built responsive analytics dashboards and personalized user preference workflows.
- " Integrated market data APIs, wallet authentication, and token risk analysis using liquidity and holder-distribution data.
- " Implemented AI-powered insights and automated alert workflows to help users monitor tokens and important market activity.

FinTrust

Next.js, PostgreSQL, Prisma, Redis

Decentralized staking and rewards platform supporting token staking, cashback, referrals, ICO participation, transaction tracking, reward visualization, and administrative controls for managing platform operations and user activity.

- " Developed staking, rewards, transaction history, and reward visualization workflows.
- " Connected frontend workflows with backend APIs and Solana smart-contract interactions.
- " Built administrative functionality for managing users, platform rewards, transactions, and operational workflows.

NFC Loyalty System

React, Node.js, MongoDB

Customer loyalty platform featuring NFC-based check-ins, NFT rewards, membership tiers, merchant and admin dashboards, authentication workflows, and backend services for managing customers and loyalty programs.

- " Built merchant and admin dashboards with REST API and authentication integrations.
- " Implemented NFT reward flows and membership-tier upgrade workflows.
- " Developed backend services for managing customers, loyalty activity, rewards, merchants, and membership data.

EDUCATION

University of Education

Bachelor's Degree
